### WTA STAFF

*Buck McVeigh, Executive Director*  
*Heidi Peterson, Manager, Membership & Marketing*

Formed in 1937, the Wyoming Taxpayers Association is the only statewide association in Wyoming representing united taxpayers concerned about government spending. WTA serves its members by promoting sound tax policy for a health Wyoming economy. WTA publishes regular reports on a wide range of subjects that are distributed to members and public policy makers. WTA also welcomes members' questions and routinely provides individualized member service. WTA members represent the broad spectrum of Wyoming's economy; farmers, ranchers, small businesses, utilities, mineral producers, and of course, the individual taxpayer.

**For more information regarding membership, please contact:**

# INTRODUCTION

**The WTA is pleased to offer its members the Wyoming Property Taxation 2017, a detailed guide to property taxation in Wyoming. Inside you will find the tax base and tax rates for schools, counties, cities, towns and special districts levying property taxes this year.**

## Decreased Statewide Assessed Valuation

Wyoming's 2017 statewide assessed valuation, totaling \$18.8 billion, decreased \$2.1 billion, or -10.1 percent, from the 2016 level. This resulted in a \$125 million decline (-9.3 percent) from 2016, in property taxes levied. This was the second consecutive year that assessed valuation declined in the state. Last year's valuation marked the largest annual decline in assessed valuation since 2010. Assessed valuation for mineral production (based on 2016 mineral production) fell to 44.6 percent of state total valuation in 2017, compared to 50.5 percent in 2016 and 61 percent in 2015. Natural gas production (2016 production) declined nearly 10 percent from the previous year; however, its valuation dropped by nearly 18 percent from the 2016 level. Oil production declined from year-earlier levels by 16 percent, while its valuation declined by slightly over 24 percent. Surface coal production in 2016 decreased by nearly 21 percent from a year earlier, while underground coal production declined in excess of 62 percent from a year earlier. The assessed valuation for residential property increased from 24 percent of state total valuation in 2016 to nearly 28 percent in 2017.

## Property Taxes by Major Component

The graphs on page 2 show the relative importance of property taxes by major component (mineral production, residential, industrial and commercial property, and agricultural lands) to Wyoming's tax base. Wyoming governments levied over \$1.2 billion in property taxes in 2017, a decrease of just over 9 percent from 2016. Also shown on page 2 is the general distribution of those taxes, while a more detailed breakdown by tax jurisdiction can be found on page 3.

## Tax Wealth

Tax wealth varies widely in Wyoming, as shown on page 4. Seventeen counties realized decreases in valuation, while only six counties increased from 2016 levels. Campbell, Converse, and Johnson counties realized declines in assessed valuation in excess of 20 percent

from 2016, largely due to contractions realized in mineral valuation. Albany, Laramie, Natrona, Platte, Sheridan, and Teton counties realized increases in assessed valuation levels from 2016.

## Tax Levies & County Breakdowns

The tables on pages 5-7 display tax levies by governmental type, while detailed county summaries begin on page 14. Of the countywide categories (including countywide special districts), as shown on page 6, only county fairs and libraries realized increases from prior year levels in property tax receipts. As shown on page 7, all special districts, with the exception of conservation, cemetery, and improvement districts realized decreases in property tax levies in 2017. Conservation districts realized the largest annual of just over 21 percent.

## Assessed Valuations by County

The table on page 8 displays assessed valuations, by county, for calendar years 2008 through 2017. This is where the distinction between mineral and non-mineral producing counties can clearly be seen. Campbell County, with its vast coal reserves, had the highest assessed valuation in 2017, at \$4.2 billion. Sweetwater County had the second highest assessed valuation of \$2.2 billion, followed by Sublette County with \$1.9 billion. Niobrara County, as it has been historically, recorded the lowest valuation in the state in 2017, at \$98.1 million, followed by Weston and Washakie counties.

## Assessed Valuations by Mineral Commodity

The tables on pages 9-10 display the 2017 assessed valuation by mineral commodity on production that occurred in 2016. These data illustrate the effects of mineral production and valuation at the county level. Note that both crude oil and natural gas realized double-digit decreases in assessed valuation of 24.1 and 17.7 percent, respectively, in 2017.

## Municipal Valuation & Tax Levy Composite

Found on pages 58-60 is the 2017 Municipal Valuation and Tax Levy Composite.

# 2017 WYOMING PROPERTY TAX SUMMARY

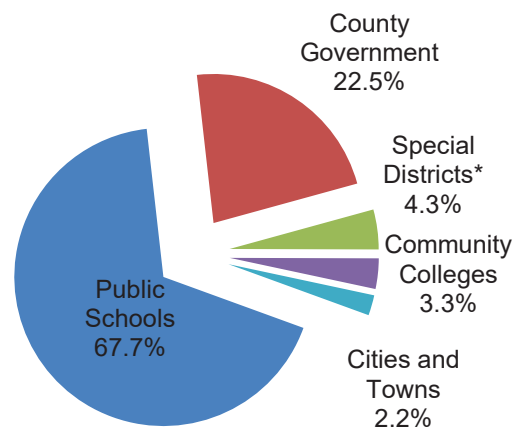

## How it is derived

	Assessed Valuation (Millions)
Mineral Production	\$8,390.8
Residential Property	5,169.2
Industrial Locally-Assessed	1,986.9
Industrial State-Assessed	1,517.3
Commercial Property	1,416.4
Agricultural Lands	344.5
<b>TOTAL</b>	<b>\$18,825.1</b>

## How it is used

	Taxes Levied (Millions)
Public Schools	\$827.6
County Government	275.5
Special Districts*	52.8
Community Colleges	40.4
Cities and Towns	26.9
<b>TOTAL</b>	<b>\$1,223.3</b>

\* Special districts levying countywide are included in "county governments".

# INTRODUCTION TO DETAILED 2017 MILL LEVIES

The following three pages offer brief explanations of column headings and additional information which will serve as an aid in understanding mill levies shown in the next section for all units of government in Wyoming.

The School Foundation Fund and the mandatory county levies are fixed by law at 12 and 6 mills, respectively. They are combined in one column for ease of reading. The breakdown for county levies is shown in the first section so the reader will be able to more readily determine the increases or decreases reflected in the county levies. The first section also includes special district levies that apply uniformly to all property within each school district. The second section shows additional levies that apply to property depending on its location within the county. Also included in the second section are the special districts that are levied less than countywide. In order to determine the breakdown of total mill levy on property, it may be necessary to determine from the county assessor those special districts listed that apply to a particular location.

## SCHOOL DISTRICTS

All school districts in Wyoming are unified and serve K-12. There may be more than one school district in the county, and districts cross county lines in some cases.

## ASSESSED VALUATION

The figures for each school district are for the entire school district including cities, towns, and special districts. The combined assessed valuation of school districts and portions of districts within a county will total that county's assessed valuation.

## SCHOOL DISTRICT LEVIES

**District (25.000 mills mandatory)** - All school districts are required to impose a 25-mill levy counted as a local resource toward meeting a district's operational funding level guaranteed by the state. A district is subject to recapture if this levy, combined with other local resources, generates more than the state guarantee.

## **State Foundation Fund (12.000 mills mandatory)** -

This levy is collected from all counties and remitted to the state where it is distributed to school districts based on a foundation formula. Money recaptured from districts is also added to this fund for redistribution. A district whose local resources exceed 100 percent of its guarantee must refund the amount over 100 percent to the state for redistribution to poorer districts.

**County Levy (6.000 mills mandatory)** - All counties are required to impose a 6-mill levy for school support. County treasurers disburse tax receipts from this source back to school districts within the county according to a formula calculated by the state Department of Education based on district average daily membership. Since this 6-mill mandatory levy applies to all property in each county, it is listed in the following tables as combined with the state Foundation Fund levy of 12 mills giving a total of 18 mills.

## **Other School District Levies:**

- **Adult Education** - 2.500-mill limit
- **Board of Cooperative Educational Services program** - 2.500-mill limit
- **Building Fund** - the number of mills necessary to fund the program
- **Recreation** - 1.000-mill limit (listed under Special Districts in this publication)
- **Bonds and Interest** - Levies made to pay principal and interest for bonded indebtedness are shown in this column. There is no limit on the levy, but a district operating either an elementary school or a secondary school is limited to 6 percent of the assessed valuation for bonded debt. A district with both elementary and secondary schools is limited to 10 percent of the assessed valuation for bonded indebtedness.

**COMMUNITY COLLEGE LEVIES (10.000 mill limitation)** - Community college districts may levy up to 10.000 mills for operations. The colleges initially may levy up to 4 mills with the approval of district voters. State aid is contingent on a college levying the 4-mill maximum. After the initial 4 mills are reached, colleges may levy up to an additional 6 mills (1 mill with Board approval, and up to 5 additional with district voter approval). Levies for bonded indebtedness are in addition to the 10-mill limit; voter approval is required. Total debt is limited to 4 percent of district valuation.

**COUNTY LEVIES (12.000 mill limitation)** - Counties are limited to a maximum of 12 mills for county operations. Levies for bond redemption and interest payments are in addition to the 12-mill maximum. Counties may specify that funding for certain programs be guaranteed by a specific levy so long as the total levy does not exceed 12 mills. Levies for principal and interest on voter-approved bonded debt are in addition to the county 12-mill limit.

**CITY AND TOWN LEVIES (8.000 mill limitation)** - Cities and towns must operate within an 8-mill constitutional limit. The city mill levy is in addition to other levies. Municipalities within a fire district must contribute the amount of the fire district levy from their 8-mill limit. Levies for principal and interest on voter-approved bonded debt are in addition to the city and town 8-mill limit.

**SPECIAL DISTRICT LEVIES** - These levies are shown in two different ways on the county chart. Those that are countywide, such as weed and pest, are shown in the first section; those that are less than countywide are shown in the second section under Special Districts. These property tax levies are made by special purpose districts as the result of voter approval for a myriad of purposes within statutory limitations. Voter-approved debt is in addition to the limits shown below.

<b>SPECIAL DISTRICT</b>	<b>LIMITATION ON AMOUNT OF TAX LEVY* for year of publication</b>
Water and Sewer District	8.000 mill limit
Hospital District	6.000 mill limit for operation
Cemetery District	3.000 mill limit
Fire Protection	3.000 mill limit
Solid Waste Disposal District	3.000 mill limit
Resort District	3.000 mill limit
Rural Health Care District	4.000 mill limit
Senior Citizen Service District	2.000 mill limit
Museum District	1.000 mill limit
Sanitary and Improvement District	1.000 mill limit
Soil and Water Conservation District	1.000 mill limit
Water Conservancy District	1.000 mill limit
Weed and Pest Control	1.000 mill limit; plus 1.000 mill for leafy spurge
Regional Transportation Authority	0.500 mill limit
Flood Control District	12.000 mill limit on real property
Downtown Development Authority	30.000 mill limit on commercial & industrial property
Irrigation District	May levy for current expenses
Local Improvement	May levy property taxes for bonds and interest only
Improvement and Service	May levy property taxes for operations and maintenance

## HOW TAX AMOUNTS ARE DERIVED

The following classes of property and the percent of fair market value of property assessed for property tax are specified by Wyoming law:

1. Gross value of minerals and mine products - 100%.
2. Property used for industrial purposes, defined as: the property of pipeline companies, electric utilities, railroad companies, car companies, telephone and telegraph companies, other public utilities; and those properties used or held for use for manufacturing, milling, converting, producing, processing or fabricating materials; the extraction or processing of minerals; the mechanical, chemical or electronic transformation of property into new products - 11.5%.
3. All other property, real and personal - 9.5%.

The assessed value is multiplied by the amount of mill levy that applies for the location of the property to get the amount of property tax due. One mill is \$.001 (1/1000 of a dollar.)

### SAMPLE CALCULATION OF PROPERTY TAX LEVY:

<b>Market Value of Property:</b>	<b>\$200,000</b>
<b>Assessed Value of Property:</b>	<b>\$19,000</b> (\$200,000 X 9.5% for residential)

#### Mill levies:

<b>K-12 Education Levies:</b>	<b>Mills</b>
District levy	25.000
Mandatory County levy	6.000
Foundation Fund levy	12.000

#### Additional County-wide Levies:

County levy	12.000
Weed and Pest	2.000
Hospital District	3.000
Conservation District	1.000

<b>City or Town Levy:</b>	<b>8.000</b>
---------------------------	--------------

#### Special District Levies:

School District Recreation	1.000
Fire	3.000
Cemetery	3.000

<b>Total Applicable Levy:</b>	<b>76.000 mills</b>
<b>Total Property Taxes:</b>	<b>\$1444.00 (\$19,000 X .0760)</b>

## SPECIAL DISTRICTS - CONSERVATION

Property Tax Levy: **\$5,003,566**

*Conservation special districts perform surveys and research on range management, erosion, floods and the preservation of water and the works projects needed in an area. They also conduct regular demonstrations of techniques in these areas to help area businesses improve their use of resources. They regularly produce plans for future conservation efforts and are limited to 1 mill per every dollar assessed levy under WS 11-16-133. Their powers are provided for under WS 11-16-122.*

## SPECIAL DISTRICTS - IMPROVEMENT & DEVELOPMENT

Property Tax Levy:

\$710,550

*Improvement special districts construct improvements or acquire improvements by contract. They also furnish local services to make local improvements or improve local facilities. They work on (but are not limited to) roads, sidewalks, streetlights, parks, trash pick-up and water, in addition to a myriad of other services. They may only levy for bonds and interest under 18-12-134 and their powers are provided for under WS 18-12-112.*

*Development special districts mostly work on urban renewal and are limited to a 30 mill levy on commercial and industrial property under WS 15-9-217 and their powers are provided for under WS 15-9-203.*

## WYOMING TAXPAYERS ASSOCIATION CORNERSTONES OF TAXATION

---

### JUSTIFICATION

- Is there a justified need for the tax and is it fiscally prudent?
- Are existing government funds spent efficiently before considering a new tax?
- Is the primary goal of the tax to generate revenue or does it modify behavior or influence policy?

### EQUITY

- Does the tax impose equal and uniform liabilities upon similarly situated taxpayers?
- Is the tax constitutional?
- Does the tax disadvantage one taxpayer over another?

### BALANCE

- Does the tax result in diversification in taxation?
- Does the tax influence decisions regarding spending, saving or investing?
- Does the tax concentrate a financial burden on a few and will the tax distort economic behavior?

### STABILITY

- Is the tax stable and predictable under changing political, economic, regulatory and environmental conditions?

### TRANSPARENCY

- Is the tax visible, accountable and auditable?
- Is the tax easy to understand, administer and cost effective to collect?

## WYOMING TAXPAYERS ASSOCIATION EXEMPTION CRITERIA

### JUSTIFICATION

- ✓ **IS THERE A NEED FOR THE EXEMPTION AND CAN IT BE JUSTIFIED?** *Do existing Wyoming products become less competitive in the marketplace in the absence of the exemption?*
- ✓ **IS THE EXEMPTION FISCALLY PRUDENT?** *Can state and local government operate in a fiscal and prudent manner without the income associated with the exemption?*
- ✓ **DOES THE EXEMPTION CREATE BENEFITS FOR WYOMING?** *Will it result in new jobs, quality jobs, wages sufficient to support sales tax revenue through discretionary spending, ancillary business/industry attraction, in-migration of population?*

### EQUITY

- ✓ **DOES THE EXEMPTION CREATE EQUAL AND UNIFORM TAX LIABILITIES/BENEFITS UPON SIMILARLY SITUATED TAXPAYERS?** *Does the exemption disadvantage one taxpayer over another?*

### BALANCE

- ✓ **DOES THE INDUSTRY SEEKING EXEMPTION CURRENTLY CONTRIBUTE TAX REVENUE TO WYOMING'S TAX BASE?** *If so, what are the offsetting benefits to warrant the exemption?*
- ✓ **DOES THE EXEMPTION RESULT IN EXPANSION OF THE STATE AND OR COUNTY'S TAX BASE?** *If the exemption is for a new industry sector, what taxes will the new industry pay? How do the new taxes compare to the amount of the exemption?*
- ✓ **WILL THE ABSENCE OF THE EXEMPTION HARM WYOMING'S TAX BASE?** *If the exemption is repealed, will there be a contradictory impact on the economy - lost jobs, lost ancillary business, lost discretionary spending, and out-migration of population in the absence of the exemption?*
- ✓ **DO TAX BURDENS (FOR PUBLIC SERVICES PROVISIONS) OUTWEIGH THE TAX CONTRIBUTION?** *If growth is anticipated, will the costs resulting from increased demand for public services (city/county, K-12) be adequately met?*

### STABILITY

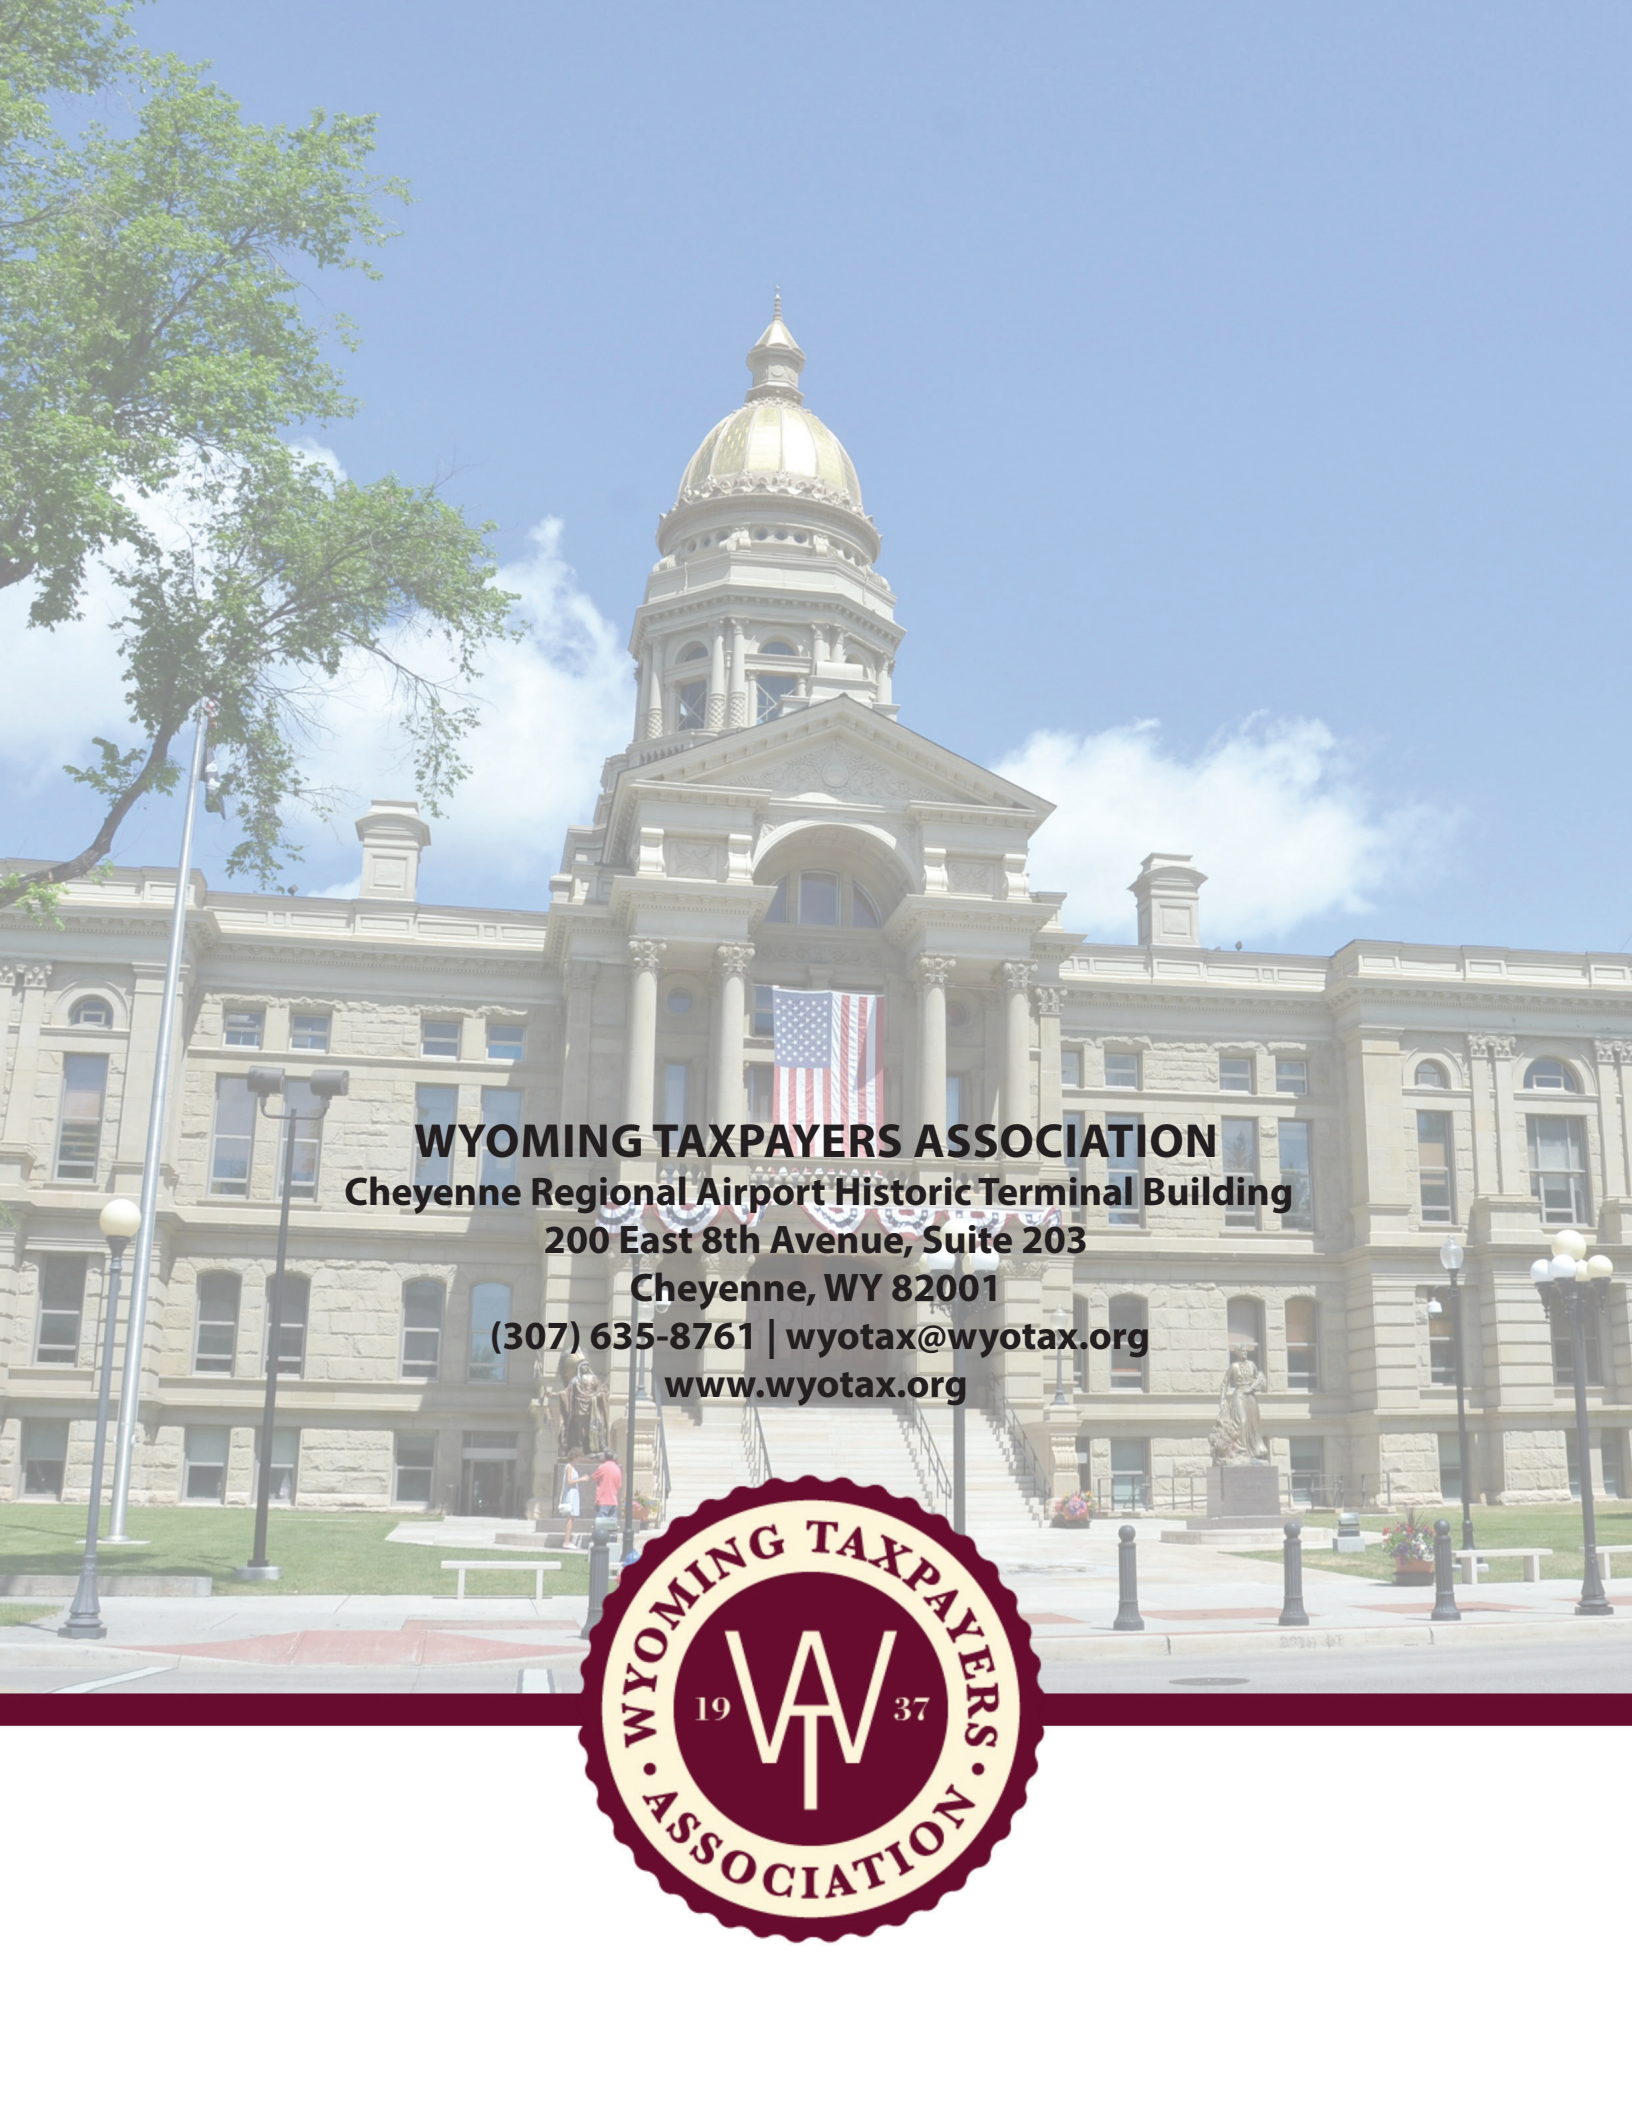

- ✓ **IS THE EXEMPTION PREDICTABLE AND SUSTAINABLE?** *Has a fiscal impact analysis been prepared and scrutinized for accuracy? Do the benefits of the exemption outweigh or offset a sustained loss of tax revenue created by the exemption?*

### TRANSPARENCY

- ✓ **IS THE EXEMPTION TRANSPARENT, ACCOUNTABLE AND AUDITABLE?** *What is the process and procedure for managing and granting the exemption?*
- ✓ **HOW WILL THE BENEFITS AND EFFECTS OF THE EXEMPTION BE MEASURED?** *What reporting is required and who is accountable?*
- ✓ **WHAT PROVISIONS ARE IN PLACE TO RESCIND THE EXEMPTION IF PROJECTED BENEFITS ARE NOT ACHIEVED?** *Does the exemption have sunset provisions, clawback provisions?*

A photograph of the Wyoming State Capitol building, a large, ornate, light-colored stone structure with a prominent golden dome. The building is set against a clear blue sky with some light clouds. In the foreground, there is a paved plaza with some greenery and a few people walking. An American flag is visible on a pole in front of the building.
